Teaching English to Speakers of Other Languages (TESOL)

Brisbane, Australia

The College has been involved in TESOL teacher training since 2001. Lectures in TESOL methodology and practical application are conducted by highly qualified lecturers in state of the art facilities. Innovation in the use of technology such as interactive whiteboards is a popular component of the course, as is the use of music to enhance English language acquisition.

On our spacious garden campus, participants can visit Australian Primary and Secondary school classes, engage in professional conversations with Australian teachers, and observe a range of teaching professionals in action in their classrooms.

Components of the Course

TESOL Lectures: Lectures in teaching English to speakers of other languages

Mentor Program: Participants are assigned mentors from our teaching staff

Classroom Observation: Participants observe local classes

Outings: Weekly outings to places of cultural interest and scenic beauty

Homestay: Living with an Australian family gives daily opportunities to develop English conversational skills.
