Improving traffic flow into the campus via Wecker Road entrance

Dear Parents,
Welcome back to the 2015 school year.

Last year the College embarked on a new initiative to revamp traffic drop off zones along Grace House and the Science Centre to enable a safer and smoother traffic flow in and out of the campus during peak hours. We wish to thank all parents for the support you have given to the College. We were pleased to see the initiative was successful and there was a significant improvement in the flow of traffic.

We should all play our part in keeping every child safe in our car parks – “Courtesy is Contagious”
Please note the new lines at the entrance into the College (see picture below):

Driving into the vicinity of Grace House, lines are drawn to divide the flow into 2 streams. On the left, cars go around the bend towards Grace House for Prep and Primary students pick-up. Cars going towards Science Centre pick-up zone will need to keep to the right lane which is the flow through lane. Cars are not permitted to park along the childcare facility near the entrance. Parking spaces are available towards the lower end of the driveway near the crossings.

Any enquiries can be directed to mail@brisbane.coc.edu.au. We look forward to your support once again in 2015.
